

# Medicare has increased CCM Reimbursements by 54%

Includes expanded support for Principal Care Management (PCM) for 2022.

**Preveta, the care navigation software designed for specialty care, will empower you to systematize Care Pathways and get reimbursed through CCM.**

CPT Code	2021 Payment / 2022 Proposed Payment		Difference
<b>99490</b> CCM Clinical Staff first 20 min	\$41.17	\$63.47	\$22.30 / 54%
<b>99439</b> CCM Clinical Staff each add 20 min	\$37.69	\$49.36	\$11.67 / 31%
<b>99487</b> CCCM Clinical Staff first 60 min	\$91.77	\$138.35	\$46.58 / 51%
<b>99489</b> CCCM Clinical Staff each add 30 min	\$43.97	\$71.86	\$27.89 / 63%

## Annual Revenue CCM Projection

CCM reimburses for care coordination activities, including appointment scheduling, benefits verification, and prior authorizations. Preveta streamlines the workflow and documentation of care coordination activities.

	2021 @ with 1 Patient Navigator	2022 @ with 1 Patient Navigator <i>(Projected Reimbursement)</i>	2022 @@ with 2 Patient Navigators <i>(Projected Reimbursement)</i>	2022 @@@@ with 4 Patient Navigators <i>(Projected Reimbursement)</i>
<b>Hourly Rate</b>	\$120	\$160	\$320	\$640
<b>Annual Revenue<sup>1</sup></b>	\$190,000	\$260,000	\$510,000	\$1,020,000

## PCM Reimbursement Amounts

If your predominant patient population has only 1 chronic condition, Medicare has also increased PCM rates. Our software helps you track PCM reimbursable activities too.

For 2022, two new PCM codes were added and made permanent, allowing physicians and clinical staff to be reimbursed for work beyond the first 30 minutes with a patient.

The following table illustrates reimbursement for 1 hour of PCM under the 2022 guidelines.

CPT Code	2021 Payment / 2022 Proposed Payment	Difference
<b>99424 + 99425</b> <span>NEW!</span> PCM Physician or NPP work for 1 hour	<b>\$90.37</b> / <b>\$141.04</b>	\$50.67 / 56%
<b>99426 + 99427</b> <span>NEW!</span> PCM Clinical Staff work for 1 hour	<b>\$38.73</b> / <b>\$112.83</b>	\$74.10 / 191%

## The Preveta difference

**Better patient  
engagement**

**Increased  
revenue**

**Improved treatment  
identification**

Schedule a demo to learn how our software can help your staff run an effective, reimbursable CCM program in as little as two weeks!

<sup>1</sup>Annual Revenue is computed with the following assumptions: Each FTE (full-time employee) is working at 80% efficiency to account for overhead and is working 2,000 hours per year. 2,000 hours per year per FTE \* 80% = 1,600 hours per year. So hourly reimbursement \* 1,600 hours = projected annual revenue from patient navigator(s) running the CCM program.
